THULLURI GOPI

Data Analyst | SQL • Power BI • Python • ETL

+91 6300750971 • gopichand2952@gmail.com • Hyderabad, India • LinkedIn • GitHub

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in SQL, Power BI, Python, and ETL data pipelines. Built interactive dashboards and automated data cleansing workflows during internship at a Bengaluru-based technology firm. Skilled at translating business requirements into analytical solutions and communicating data-driven insights to cross-functional stakeholders. Seeking a Data Analyst / Associate role to support data quality, visualization, and business intelligence initiatives.

TECHNICAL SKILLS

SQL / Databases	MySQL — joins, subqueries, CTEs, GROUP BY, views, data extraction & transformation
Visualization	Power BI (DAX, Power Query, KPI dashboards, slicers); Excel (Pivot Tables, VLOOKUP, Power Query, conditional formatting)
Python	Pandas, NumPy, Matplotlib — data cleansing, validation, and exploratory analysis
ETL	Data integration, cleansing, validation, and transformation pipelines; Alteryx (familiar)
Other	Relational databases, Agile collaboration, stakeholder reporting, data quality assurance

INTERNSHIP EXPERIENCE

Data Analyst Intern | Kodnest Technologies Pvt. Ltd., Bengaluru *Jan 2024 – Apr 2024*

- Designed and deployed 3+ interactive Power BI dashboards tracking KPIs and business performance trends, enabling stakeholders to reduce manual reporting time.
- Wrote SQL queries (joins, subqueries, GROUP BY) against MySQL databases to extract and transform datasets for business analysis and reporting.
- Built Python (Pandas, NumPy) scripts to automate data cleansing and validation, resolving missing values, duplicates, and anomalies across structured datasets.
- Applied data quality checks pre-visualization to ensure accuracy and consistency of all analytical outputs before delivery to business stakeholders.
- Collaborated with cross-functional team members, communicated findings clearly in status updates, and translated business requirements into analytical deliverables.

PROJECTS

HR Analytics Dashboard | *Power BI, DAX, Power Query, MySQL*

- Built end-to-end HR dashboard analyzing employee attrition, headcount, salary distribution, and workforce trends across departments and gender groups.
- Implemented DAX measures for dynamic KPIs and designed slicers/filters enabling HR stakeholders to self-serve department-level insights — eliminating ad hoc reporting requests.

Sales Performance Dashboard | *Power BI, Excel, DAX, Power Query*

- Developed sales analytics dashboard integrating data from multiple sources to track revenue, growth trends, and regional performance gaps.
- Used DAX KPI calculations and trend comparisons to surface actionable insights, helping business users identify underperforming segments.

EDUCATION

Master of Computer Applications (MCA) — Jawaharlal Nehru Technological University, Kakinada *Aug 2024*

Bachelor of Commerce (B.Com) — Acharya Nagarjuna University, Guntur *May 2022*

CERTIFICATIONS

Introduction to Python — Infosys Springboard

Power BI Data Analyst — Microsoft (in progress / add if applicable)
